

Softecon Enterprise's personnel is familiar with ERP systems and has been implementing them for many years. Our main purposes are high quality services and customers' satisfaction.

Softecon Enterprise offers affordable solutions without any surprises for customers. Our implementations are distinguished by the fact that they were completed within the planned implementation timeline.

Our company branched out into implementations in Cyprus, Bulgaria, Ukraine and Romania by supporting Oracle JD Edwards EnterpriseOne by Oracle and covering local needs (Localization).

The combination of our know-how and the high level of Oracle JD Edwards EnterpriseOne by Oracle is a guarantee for successful project implementation and return on investment.

VALUE COMMITMENT

Softecon Enterprise's customers view the purchase of software as an investment and not as a necessary expenditure item. They expect this investment to contribute towards the increase of the profitability and development of their business. Softecon Enterprise offer flexible, low cost and integrated business solutions with a very competitive total cost of ownership.

With the passing of time, Oracle JD Edwards EnterpriseOne solution requires less resources and also less time. The software consists of a large number of applications, allowing the implementation of the solutions that are really necessary. Moreover, Oracle JD Edwards EnterpriseOne, provides functionalities for specific sectors in order to avoid the necessity to develop adapted solutions and make investments in software of other software suppliers to satisfy all the requirements of a company.

Choosing Softecon Enterprise's solutions, you can:

Recover control of your company. Nowadays, trade has become very competitive. If a company wants to cope with that challenge, fast and effective movements are required. In contrast with other enterprise solutions that lose their flexibility after their implementation, Softecon Enterprise's solutions allows changes even when a company is operational even after the implementation - even if the system is active. As a result, there is fast and direct response because of continuous monitoring.

From idea to practice. Conditions have changed. Nowadays, enterprise solution effectiveness depends on how fast the solution is able to be adapted to new business ideas inside the company. With the systems that Softecon Enterprise supports, you can implement any idea, without affecting any other activities.
